

Changes for the CMS-1500 form

Medtech will now print insurance forms on plain paper instead of on the pre-printed forms. This new option will ensure the forms are aligned. This change will be effective on April 1st, 2014 and will apply to the new CMS-1500 layout (version 02/2012).

If you need to start using the new layout before April 1st, you can turn on the option in Medtech. Goto Config-Practice-Claims. Place a checkmark in the box: “Use CMS1500 form version 02/2012)”

If you find the need to use the pre-printed forms, please contact Medtech at medtechsupport@medtech.ws Or, you can call the office at 636-207-0277.
